

# Testing Procedures

1. You may not go to your lockers for other work on test day. It must be brought to class with you. Most tests do not take the entire period, so you will need something to work on.
2. No papers should be in the open or under your desk; it must be inside a notebook. Failure to do this may result in a zero.
3. Eyes on your own paper, and no talking during a test. Anyone suspected of cheating gets a zero.
4. No talking until **everyone** is finished. Violators will be banished to the “D” Wall.
5. Tests will be graded by the teacher (scantrons will be processed by a student) and returned as soon as possible.
